I am a **Full Stack Developer** with knowledge in blending the art of design with the skill of programming to deliver an immersive and engaging user experience through efficient and clean UI/UX and dynamic, scalable and secure Back ends, proactive feature optimization, and relentless debugging along with highly optimized backend code to deliver the optimal experience to the end-user. Up to date with emerging UI trends and new technologies for further improvements, passionate about minimalistic aesthetics and UI design. A Linux enthusiast with a keen interest in the cybersecurity sector.

EXPERIENCE

DATES FROM JULY 2020 – TO JULY 2020

FRONT END DEVELOPER, FREELANCE

Freelance Job.

Built a responsive static site using HTML, CSS and JS for an educational start-up. Optimized the site to be fully functional on small screens with fast loading times and SEO friendly.

DATES FROM SEPTEMBER 2020 – TO SEPTEMBER 2020

WORDPRESS DEVELOPER, FREELANCE

Freelance Job.

Developed a WordPress site for a literature-based Organization using Elementor.

DATES FROM JUNE 2021 – TO SEPTEMBER 2021

FULLSTACK INTERN, NEARLIKES

Paid internship for 3 months.

Made UI/UX designs for admin dashboard and client side. Created prototypes for the websites using VUE3 Framework, state management, Firebase user authentication and REST API's and deployed with MEVN stack.

DATES FROM OCTOBER 2021 – TO PRESENT

LEAD FULLSTACK DEVELOPER, NEARLIKES

Currently working remotely.

Fully developed, tested and deployed several MEVN applications. Made Robust API's for a mobile application which is currently on play-store. Managed Linux Servers and Databases along with DEVOPS. Integrated payment systems (Razorpay, Stripe) and external APIs like Facebook graph API, OTP Authentication API's.
